PROFESSIONAL SUMMARY

Python Full Stack Developer with 1.3 years of experience in building web and backend applications using Django MVT and Django REST Framework. Hands-on experience in database design, REST API development, and authentication mechanisms. Worked on server-rendered web applications using HTML, CSS, JavaScript and developed REST APIs for mobile applications. Experience with PostgreSQL, Docker, Redis, Celery, and WebSockets; currently learning React through personal projects. Availability: Immediate | Notice Period: 0 Days

WORK EXPERIENCE

GISFY PRIVATE LIMITED

Python Full Stack Developer

Jan 2025 - Oct 2025

Project: iamstillalive.com (Production Web & Mobile Backend)

- Developed production web features using Django MVT, including models, views, and server-rendered templates.
- Built REST APIs using Django REST Framework for mobile application support and backend integrations.
- Designed and optimized PostgreSQL schemas using Django ORM and implemented authentication mechanisms.
- Integrated Redis, Celery, WebSockets (Django Channels), and Docker for async processing and real-time features.

Q Edge Technologies, Hyderabad

Python Full Stack Developer Trainee (Training Program)

Aug 2024 - Dec 2024

Project: Office Employee Management System

URL: <https://office-emp-proj.vercel.app/>

- Completed a 5-month intensive Python full-stack training program using Django MVT architecture.
- Developed an Office Employee Management System using Django models, views, templates, and PostgreSQL.
- Implemented CRUD operations, form handling, and server-side rendering using Django templates.
- Designed relational database schemas using Django ORM and used Git for version control.

PROJECTS (LEARNING / PRACTICE)

ACADEMY MANAGEMENT PLATFORM

Jan 2025 - Present

Learning Project | Django, Django REST Framework, PostgreSQL, Redis, Celery, Docker

- Developing a learning-based Academy Management Platform using Django and Django REST Framework.
- Building REST APIs and backend logic for managing students, courses, and enrollments.
- Implementing JWT authentication and integrating Redis and Celery for background task processing.
- Using Docker for containerized development and learning React for frontend integration.

SKILLS

Python, Django, Django REST Framework (DRF), REST API Development,
PostgreSQL, MySQL, Django ORM,
HTML, CSS, JavaScript,
Redis, Celery, Django Channels (WebSockets),
Docker, Docker Compose,
Git, GitHub,
JWT Authentication,
React.js (Learning)

EDUCATION

Deccan College of Engineering and Technology, Osmania University, Hyderabad

Master of Computer Applications (MCA) - 70%

Nov 2022 - Nov 2024

M M H A P University, Patna, Bihar

Bachelor of Computer Applications (BCA) - 68.63%

Jul 2018 - Nov 2021

CERTIFICATIONS

Full Stack Development with Python

Q Edge Technologies, Hyderabad
