## PROFESSIONAL SUMMARY

Backend Developer with **1 year of hands-on experience (including internship)** building scalable applications using Django and Django REST Framework. Skilled in REST APIs, PostgreSQL optimization, authentication systems, Redis, Celery, WebSocket, and Docker. Currently expanding full-stack capabilities with React.

## WORK EXPERIENCE

### GISFY PRIVATE LIMITED — Python Full Stack Developer

Jan 2025 – Oct 2025

**Project:** I am Still Alive ([iamstillalive.com](http://iamstillalive.com)) - Healthcare Platform

- **Built production** backend modules using Django, supporting real users and live data operations.
- **Developed** REST APIs enabling seamless communication between frontend and backend systems.
- **Optimized** PostgreSQL queries and schema design to improve response speed and system efficiency.
- **Implemented** secure authentication workflows with access control and MFA verification.
- **Reduced** request processing time by using Redis caching and Celery background jobs.
- **Built real-time** communication features with WebSocket for instant client updates.
- **Containerized** services with Docker, ensuring consistent environments across development and deployment.
- **Diagnosed** and fixed production bugs, improving application stability and reliability.
- **Collaborated** with developers and stakeholders to deliver features within release cycles.
- **Wrote clean**, maintainable code following scalable backend architecture principles.

## INTERNSHIP & TRAININGS

### Python Full Stack Developer Internship & Training Q Edge Technologies, Hyderabad

Aug 2024 - Dec 2024

- Built a full-stack Employee Management System using Django and PostgreSQL with complete CRUD functionality.
- Designed database models, implemented backend logic, and integrated server-rendered templates.
- Developed backend workflows including form handling, validations, and data processing.
- Gained hands-on experience in database design, REST concepts, and scalable backend structure.
- Followed clean coding practices and debugging techniques while building real-world style applications.

## PROJECTS (FREELANCE)

### Academy Management Platform — Freelance Project

Dec 2025 – Feb 2026

- Developed backend features using Django and DRF including REST APIs, authentication, and business logic.
- Designed PostgreSQL schemas and implemented Redis + Celery for asynchronous processing.
- Containerized application services using Docker for consistent deployment environments.
- Integrated React frontend with backend APIs for smooth client-server communication.

## SKILLS

**Languages:** Python, JavaScript, SQL

**Frameworks:** Django, Django REST Framework, FastAPI

**Databases:** PostgreSQL, MySQL

**Backend & Tools:** Django ORM, Redis, Celery, Django Channels, JWT Authentication

**DevOps & Version Control:** Docker, Git, GitHub

**Frontend:** HTML, CSS, React.js

## EDUCATION

### Master of Computer Applications (MCA) — 70%

Nov 2022 - Nov 2024

Deccan College of Engineering and Technology

Affiliated to Osmania University

### Bachelor of Computer Applications (BCA) — 68.63%

Jul 2018 - Nov 2021

M M H A P University
